

## **Department of Geography, 18/05/2018:-**

### **Field study report on “A case study of socio-economic status of Halakhbari Dirpai Chapori villages (Uriamguri) Bordoloni Block**

### **Gogamukh, Dhemaji”**

#### **Introductions and Study area :-**

On 28 November 2023, Department of Geography arranged a Field Study tour for the HS 2<sup>nd</sup> year students of Gogamukh College to study socio-economic status of socio-economic status of Halakhbari Dirpai Chapori villages (Uriamguri) Bordoloni Block Gogamukh, Dhemaji” to fulfill the requirements of their practical work of AHSEC curriculum. Halakhbari Dirpai Chapori (Uriamguri) villages is a remote and socio-economically backwards villege in Mingmang Panchayat of Bordoloni block, Gogamukh Dhemaji. The villagers of this village is struggling for their living and basic needs. They have to drink river water and agriculture is not properly practicable. Market, Education and Medical facilities are not available nearest to them.

#### **Objective:-**

- To familiar with the socio-economic status of the study area.
- To know about the health and education facilities of the study area.
- To study about the environment and cleanliness of the study area.
- To identify and suggest measure for socio-economic problems of the study area.
- To get ourselves acquainted with the people of the society and their culture.

#### **Methodology:-**

Secondary data are not much available for this area. Field visits were made to get all first hand information of its physiography, environment and socio- economic. Necessary survey tools like questionnaire, schedule are used in data collection. Data are analysis with the help of statistical tools and methods. Personal interview are made to the villagers to understand their socio-economic problems and status.

#### **Observation:-**

- People of the village are economically poor (day labour) and not well educated.
- There is lack of drink water supply. Though there is water supply tank.
- The road of the village is not so well developed.
- There is no good market facilities in the study area.
- There is lots of problem with electricity supply in the study area.
- There is lack of sanitization facilities, cleanliness and modern health facilities in the study area.

## Outcome:-

Students were able to interact and understand the socio-economic problem of the study area. They got familiar and learned the survey method by working experience which was thought in their classroom. They were able to find out that Education, Drinking water, Road and Electricity are the main concerns of this village. Administrative and financial support are to be required for initial development of the village. Medical and health services have to be improved.
